

June 24, 1975

Mr. Dennis Wade
Body Shop Manager
Don Wessel Oldsmobile-Honda
1407 St. Louis St.
Springfield, Missouri 65802

Dear Mr. Wade:

This letter will confirm our conversation of June 23, 1975 concerning spillage of waste paint, etc., to the rear of the body shop on Olive St. In our conversation you were informed of City, State, and Federal regulations pertaining to spillage of this type.

You indicated that this material dries very quickly and would probably not leave your property, however; during a rainfall prior to our conversation a material resembling paint was observed leaving the property and flowing into the drainage ditch to the east. You also indicated that we can be assured that any waste material will be disposed of in the solid waste container at the rear of the body shop. Your cooperation in this matter will be appreciated. This office will maintain periodic surveillance of the area to see if this is being done.

If you have any questions or need any assistance please feel free to call.

Yours truly,

J. Randall Lyman
Water Pollution Control Inspector
Surveillance & Enforcement
